Top Skills

Battery Management Systems
CAN Bus Communication
PLC Programming

Languages

Sanskrit (Elementary)
Gujarati (Native or Bilingual)
French (Elementary)
English (Professional Working)
Hindi (Native or Bilingual)

Certifications

Autodesk AutoCAD Electrical for
Electrical Designers
Verified International Academic
Qualifications
Electrical Systems: Panel Boards,
Frequency
Drives, and Transformers
Electric Vehicles - Part 1
Malvern Panalytical Laser Diffraction
Based Particle Size analyzer and
associated accessories

Honors-Awards

President
Ashok Tuli Scholarship

Shivraj Dave

Electrical Engineer | Test Automation & Battery Systems Validation |
HMI | PLC | CAN Bus | HIL Testing | 3+ Years Industrial Experience |
MEng ECE

Windsor, Ontario, Canada

Summary

Electrical Engineer with 3+ years of hands-on experience in test automation, hardware validation, and advanced battery systems.

I bridge complex control systems with real-world testing through rigorous validation frameworks and traceability management.

My expertise spans:• Test Automation & Validation: PLC programming (Delta PLCs), HMI design, CAN bus communications, instrument commissioning, and Hardware-in-the-Loop (HIL) testing• Battery & Control Systems: Designed battery pack architecture, developed adaptive BMS control algorithms using MATLAB/Simulink co-simulation, and validated EV powertrain integration• Regulatory Compliance & Traceability: 3+ years managing FDA/USFDA documentation standards, ISO compliance, and requirements traceability—critical disciplines for automotive validation• Industrial Troubleshooting: Executed 270+ equipment commissioning procedures and root cause analysis across pharmaceutical, chemical, and automotive environmentsCurrently focused on high-volume automotive testing and EV battery validation, I am proficient in Python, MATLAB, AutoCAD Electrical, and industrial automation platforms. As an OSPE Affiliate Member, I actively contribute to Ontario's engineering community.As an active Affiliate Member of the Ontario Society of Professional Engineers (OSPE), I recently organized provincial engineering information sessions to foster industry connections. I am a multilingual communicator fluent in English, Hindi, Gujarati, and French, ready to drive reliability and efficiency in fast-paced manufacturing environments. Core Competencies:Industrial Electrical Systems | Production & Process Engineering | Preventive Maintenance | Root Cause Analysis & Problem Solving | AutoCAD Electrical & Revit | Electric Vehicle (EV) Infrastructure | Cross-Functional Collaboration | Multilingual Technical Communication

Experience

Linamar Corporation

1 year 1 month

Student_Production Winter 2026

January 2026 - April 2026 (4 months)

Windsor, ON

Supported high-volume automated manufacturing operations within a fast-paced automotive production environment, ensuring adherence to safety and operational standards.

Provided fast-response technical support and troubleshooting for facility hardware and production equipment, including resolving localized technical issues with site systems and tracking scanners.

Collaborated with production, maintenance, and controls teams to assist with daily operations, gaining practical floor-level exposure to industrial automation and manufacturing solutions.

Assisted supervisors with operational logistics, shift coordination, and maintaining standardized work instructions to ensure safe and repeatable production workflows.

Supported continuous improvement and Lean initiatives on the plant floor, contributing to efforts focused on downtime reduction, productivity, and process optimization.

Exkor Student- Fall 2025

September 2025 - January 2026 (5 months)

Windsor, Ontario, Canada

Exkor Student - Summer 2025

April 2025 - August 2025 (5 months)

Windsor, Ontario, Canada

Aimil Ltd.

Service Engineer

October 2021 - November 2024 (3 years 2 months)

Vadodara, Gujarat, India

My journey as a Technical Services Electrical Engineer at Aimil Limited has honed my skills in research, design, installation, and maintenance of electrical

and electronic systems. I've had the opportunity to work with cutting-edge technology like Laser Diffraction systems and specialize in servicing Malvern Panalytical equipment. Proud of the impact I've made across various sectors, particularly in the pharmaceutical industry, where aseptic techniques are paramount.

GUJARAT STATE ELECTRICITY CO. LTD.

Summer Intern

May 2019 - May 2019 (1 month)

Dhuvaran, Gujarat, India

Education

University of Windsor

Master of Engineering - MEng, Electrical and Computer Engineering · (January 2025 - April 2026)

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

Bachelor of Technology - BTech, Electrical and Electronics

Engineering · (2017 - 2021)
